1. Including elderly persons without spouses and with or without children.
 2. See note 1 to Table B/1.
 3. Up until August 1994, increments were paid solely for the first two children. Since that date, an increment has been paid for every child and, therefore, data according to the number of children has been added.
 4. See note 3 to Table B/1.
 5. See note 4 to Table B/1.

1. From 1965 until 1975, an allowance was paid for the first and second child solely to employed families, and, for this period, there is no separate breakdown for the first and second child.
2. From July 1985 and from October 1990, families with 1 – 3 children received an allowance for the first and second child, respectively, according to an income test (the above data do not include employed and unemployed families who received a refund). Since March 1993, the child allowance is being paid once again to all families, with no income test.
3. Since August 2003, a uniform allowance is being paid to children born since June 1, 2003, regardless of their order of birth in the family.
