\* As of January 2002, the arrangement was amended: survivors' pension recipients only include persons entitled to a full survivors' pension.

\*\* The annual number of maintenance allowance recipients refers to the month of August of each year.

\*\*\* The data for 2002 is December 2002 data.

\*\*\*\* Since 1980, the number of recipients includes split pension recipients, each of which is counted as a separate unit and since 2010 they are counted as a single unit.

Table 11  
 Recipients of an Old-age and Survivors' Pensions by Family Category, (monthly average), 1995, 2000-2016

| Year      | Total   | Old-age                |                  |                |                         | Survivors        |                   |                 |                      |                         |           |            |                 |                    |

\* Including elderly persons without a spouse, with or without children.

\*\* As of January 2002, the arrangement was amended: survivors' pension recipients only include persons entitled to a full survivors' pension.

\*\*\* The data for 2002 is December 2002 data.

\*\*\*\* Since 1980, the number of recipients includes split pension recipients, each of which is counted as a separate unit and since 2010 they are counted as a single unit.

Table 12  
 Recipients of an Old-age and Survivors' Pensions together with an Income Supplement, (monthly average), 1995, 2000-2016

| Year    | Old-age |                        |                |                         | Survivors        |                   |                 |                      |                         |               |            |                 |                    |   |

\* Including elderly persons without a spouse, with or without children.

\*\* As of January 2002, the arrangement was amended: survivors' pension recipients only include persons entitled to a full survivors' pension.

\*\*\* The data for 2002 is December 2002 data.

\*\*\*\* Since 1980, the number of recipients includes split pension recipients, each of which is counted as a separate unit and since 2010 they are counted as a single unit.

Table 13

## Recipients of Counseling Service for Elderly according to Branch, 2015-2016

| Local Branch  | 2015               |              |                      |                  |                | 2016               |              |                      |                  |                |

\* From 1965 to 1975 an allowance was paid in respect of the first and second child to families of salaried employees only and there is no separate breakdown for the first and second child during this period.

\*\* From April 1984 to February 1993, the entitlement to a child allowance was by means testing (the above data does not include families of salaried employees and families of unemployed persons who received a refund). As of March 1993, the child allowance is again being paid to all families without means testing.

\*\*\* As of August 2003, a uniform allowance is being paid to children born since 1.6.2003, regardless of their order of birth in the family.

Table 19

## Children in respect of which Allowances were Paid, by the Child's Order of Birth in the Family, 1980-2016

| Year                | Total   | Child's order of birth in the family |              |             |              |             |                               |
|---------------------|---------|--------------------------------------|--------------|-------------|--------------|-------------|-------------------------------|

## Rate of Entitlement to Benefit for Disabled Child, by Grounds of Entitlement, December 2016

| Grounds of entitlement                    | Rate of entitlement | Age restrictions   | Grounds of entitlement                        | Rate of entitlement | Age restrictions |
|---|---------------------|--------------------|---|---------------------|------------------|
| Deafness                                  | 100                 | None               | Feeding                                       | 100                 | 91 days          |
| Partial deafness                          | 50                  | None               | Absence of two limbs                          | 100                 | 91 days          |
| Down syndrome                             | 50                  | None               | Supervision                                   | 50                  | 91 days          |
| Developmental delay                       | 100                 | 91 days to 3 years | Venous  | 100                 | 91 days          |
| Two sections - hospitalization of 45 days | 100                 | 91 days            | Oxygen  | 100                 | 91 days          |
| Two sections _ blood pressure stabilizers | 100                 | 91 days            | Tracheostomy                                  | 100                 | 91 days          |
| Two sections + supervision                | 100                 | 91 days            | Partial blindness                             | 100                 | 91 days          |
| Two sections + attendance                 | 100                 | 91 days            | Disease / rare syndrome                       | 100                 | 91 days          |
| Three sections of one disease             | 100                 | 91 days            | Malignant                                     | 100                 | 91 days          |
| Four sections of two or more diseases     | 100                 | 91 days            | Psychiatric condition                         | 100                 | 91 days          |
| PDD                                       | 100                 | 91 days            | Constant attendance                           | 100                 | 91 days          |
| Autism                                    | 100                 | 91 days            | Blindness                                     | 100                 | 91 days          |
| Urethrostomy                              | 100                 | 91 days            | Intravenous infusions                         | 100                 | 91 days          |
| Dysfunction in both limbs                 | 100                 | 91 days            | Psychosis                                     | 100                 | 91 days          |
| Immunosuppression - secondary disease     | 100                 | 91 days            | Cytotoxic T-Cells                             | 100                 | 91 days          |
| Home blood tests                          | 50                  | 91 days            | Catheterization                               | 100                 | 91 days          |
| Blood tests outside the home              | 100                 | 91 days            | Colostomy                                     | 100                 | 91 days          |
| Use of nasogastric tube                   | 100                 | 91 days            | Ionizing radiation                            | 100                 | 91 days          |
| Jejunostomy                               | 100                 | 91 days            | Pathologic fractures                          | 100                 | 91 days          |
| Gastrostomy                               | 100                 | 91 days            | Impaired functioning of two limbs             | 50                  | 91 days          |
| Uncontrollable urge                       | 100                 | 91 days            | Assistance with communication                 | 50                  | 3 years          |
| Dialysis                                  | 100                 | 91 days            | Largely dependent on the assistance of others | 50                  | 3 years          |
| Chronic infections                        | 100                 | 91 days            | Totally dependent on the assistance of others | 188                 | 3 years          |
